FOOTSTEPS TO SUCCESS

After years of study, trials and experiments My Med team has achieved the success. The objective was to develop a dermal filler with long lasting results and clinically perfect, the outcome of this process was concluded with the creation of **My Filler**.

The optimal post treatment results of My Filler generated great satisfaction among patients, which made **My Filler** the “first choice”.

The aesthetic medical professionals are confident with **My Filler** and it started to be used in a daily basis in their practice.

Such an achievement in the very competitive aesthetic field is a fact and thanks to **My Filler** superior quality and reliable distribution network, we win the trust the aesthetic professionals and patients day after day.

REVITALIZE FAMILY

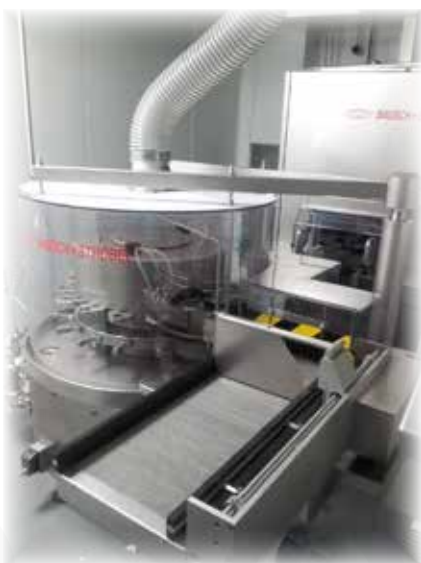

My Filler has several years of experience in injectable dermal filler technology (*Medical Device Class III*). With our scientific background and our commitment to offering top quality products, **My Filler** increased its anti-aging products range to better serve those patients and professionals who deposit their trust in our products.

My Filler's "New Life to the Skin" widens its application and creates **My Filler "Revitalize"**, the special line of Mesotherapy products.

My Filler Revitalize is a state-of-the-art range and complete portfolio of sterile topical cosmetics for professional use.

PRODUCTION

The production of **My Filler** and **My Filler Revitalize** uses the most advanced machinery operated by a high qualified and experienced personal.

Our internal manufacturing process starts from the reception, control and storage of raw materials, the cleaning and sterilization of the vials and syringes with an automatic placement inside the sterile chamber, the monitoring of the formula preparation, the quality control tests made during and after production, the fully automatic placement of the product into syringes or vials, the final packing and the product transportation to the warehouse and shipping to our distributors complies with all European rules and standards of a Medical Device Class III as well the standards of Cosmetology professional preparations.

MyFILLER Revitalize Pure

Revitalize Pure is the essence - the base of any successful mesotherapy treatment.

Revitalize Pure unique formulation has the perfect balance of collagen and non-crosslinked hyaluronic acid.

Revitalize Pure can be used in stretch marks, acne marks, scar marks and other skin imperfections.

The collagen increases the generation of new fibres, repairs and reinforces the existing ones. Hyaluronic acid increases the hydration of the derma cells.

Repairing and restructuring treatment which was dreamed about, now is a reality...

REVITALIZE PURE **MYF500**

Indication: For all skins that need to regenerate the texture and tonality.

Application: Apply **Revitalize Pure** to the hands, clean face, neck and neckline, with electroporation technique, or radiofrequency. The microneedling technique can considerably speed up the results.

MyFILLER Revitalize Booster

In 1986, Growth Factors were discovered by Stanley Cohen and Rita Levi-Montalcini, which earned the Nobel prize in Medicine. Not more than 10 years ago, laboratories were able to produce the grow factors in a standardized way.

Growth factors is naturally produced when a wound in our body requires a tissue reparation. Fractional lasers in aesthetics field based on this exact same process, the doctor create a microscopic wound that triggers EGF production.

Revitalize Booster is a EGF (Epidermal Growth Factor) of last generation.

Booster is a protein composed by 53 amino-acids widely present in our skin. It increases keratinocyte proliferation of the corneal epithelium, endothelial cell and fibroblast (protein synthesis and glycosaminoglycans).

REVITALIZE BOOSTER **MYF506**

Indication: It promotes dermal repair increasing its self-regeneration rate.

Application:

1. Mix the content of 2 ampoules into a vial of My Filler Revitalize Pure.
2. Shake until an homogeneous emulsion forms.
3. Apply 2 ml of the solution with an applicator.
4. Repeat the treatment once a week at the previously treated surface.

Booster is not injectable.

REVITALIZE PEN

Nowadays, over 6.000 practitioners worldwide offer microneedling treatment in their practise because of its effectiveness and efficiency when it comes to handling common skin problems like stretch marks, aging, wrinkles, fine lines, acne scars, hyperpigmentation and so much more.

Revitalize Pen is a small but powerful cordless device used for microneedling procedures. It has an anatomical form to optimise handling and comfort during its use. It comes in a very elegant suitcase where all necessary instruments can be allocated inside including the spare battery, make up removal, cotton and the **My Filler Revitalize** mesotherapy cocktails.

Following the techniques, the products and the results aimed to achieve, Revitalize Pen can be adjusted with the speed of the needle as well its depth of work. On the sidel of the Revitalize Pen we placed different LED's which will helps to adjust the needle speed in correspondence to a color. Moreover, near to its apical part, **Revitalize Pen** has a ring which rotates clockwise or anti-clockwise where the depth work of the needle, from 0,25mm to 2,50mm can be selected.

The complete set is composed of 1 **Revitalize Pen**, 2 rechargeable batteries, electric cable, power adapter, 2 needle cartridges and instructions of use.
